

Call Off Service for Rooftop Housing Group

CASE STUDY

SECTOR:

Housing Association

SWPA CLIENT:

Rooftop Housing Group

SWPA CONTACT:

Phil Blackmore MCIPS

FRAMEWORKS USED:

Windows and Doors (WD1)

PROJECT BACKGROUND

Since 1994 Rooftop Housing Group have helped people in housing need get a safe, secure, and appropriate home.

For nearly a quarter of a century Rooftop Housing Group have been at the heart of the community, serving their customers and are proud to have over 6,500 homes in South Worcestershire and North Gloucestershire making some vibrant communities.

Rooftop Housing Group had a requirement for the supply and installation of new uPVC window and doors across a 3-year programme.

CALL OFF SERVICE

SWPA's Call Off Service is offered on all frameworks and DPS's with the purpose of supporting our clients by freeing up their time and resources to allocate by running Call Off Mini Competitions on their behalf.

The service provides our clients with professional expertise and support from project registration right through to formal award and is tailored to meet the needs of each individual partner and their project specific requirements.

After meetings to scope the project, timelines for each stage of the Call Off process were agreed and SWPA began drafting the tender documentation. Once the documentation had been signed off by Rooftop Housing Group, SWPA uploaded the Mini Competition onto the eTendering portal.

Throughout the tendering period SWPA monitored and responded to any questions from bidders. Following the tender deadline date, SWPA carried out a tender evaluation and prepared both a Tender Report for client approval and award letters for issue.

“

Our organisation found the procurement process through SWPA to be far more straight-forward than other procurement processes that we have used previously, and would recommend that other similar social housing providers approach SWPA to help them in setting up a tender evaluation of practicing contractors within different regions of the country, to help remove a lot of the administration work taking place in the background, and the onus off ourselves in contacting each company beforehand on our behalf. The SWPA team were more than happy to guide and assist us throughout the process to help make it as streamlined as possible.

Tim Round, Building Inspector
