XX weeks

SWPA FRAMEWORK: MODULAR BUILDINGS (MB1)

The McAvoy Group were awarded the contract to build a new classroom at Malmesbury Park Primary School, Bournemouth to accommodate pupils with special educational needs. Additional classroom accommodation was required at the school due to a rise in pupil numbers.

McAvoy's Smart Offsite® solution was chosen due to the reduced programme and the need to keep disruption to a minimum at the live school site.

Early engagement with the school and client team was crucial and regular meetings were held to ensure all parties were involved in key decision making throughout the process.

The McAvoy Group

The classroom will accommodate students from all over Bournemouth, Christchurch and Poole, providing a safe and inspiring teaching space which is an invaluable resource to the area.

The project, which was awarded to McAvoy through the SWPA Modular Buildings framework, was installed on a Saturday to ensure there was no disruption to the live school environment.

“ No matter what the school asked, McAvoy would accommodate in a quick and effective manner, with minimum disruption. The building makes the outside space look more inviting and the quality is excellent. ”

Jackie Green
Headteacher
