SWPA SOUTH WEST PROCUREMENT ALLIANCE

Asset Safety & Compliance

4TH SEPTEMBER 2023 TO 3RD SEPTEMBER 2027

18TH SEPTEMBER 2023 TO 17TH SEPTEMBER 2027

(Workstream 4a Gas Safety - Domestic)

ASC1 Framework Guide

Working together to deliver better buildings, homes and communities

swpa.org.uk

SWPA provides legally compliant frameworks and DPS' which can be used by local authorities, social landlords and other public sector organisations to procure works, products and services for consultancy, compliance, refurbishment and modernisation, energy efficiency and development projects.

The South West Procurement Alliance brand, which is part of the LHC Group, was launched in October 2019.

Our aims are to work closely with South West clients and Appointed Companies and to focus on regional priorities. We are a locally based, growing team with offices in Exeter.

LHC was established in 1966 and is acknowledged as one of the most experienced and respected providers of procurement frameworks in the construction sector.

The relationship between the LHC Group and the local SWPA team gives SWPA the unique position of having local knowledge and relationships, while also benefiting from additional resources and expertise from a national framework provider.

WHY HAS THIS FRAMEWORK BEEN DEVELOPED?

CN 2023/S 000-002835, CAN 2023/S 000-026169,
CAN 2023/S 000-027818 (WS4a – Gas Safety – Domestic)

The Asset Safety and Compliance (ASC1) Framework was designed to offer a suite of asset safety and compliance support to help the public sector meet government guidelines and legal responsibilities relating to building life safety and maintenance.

What was clear throughout our engagement process was a requirement for a comprehensive suite of asset safety and compliance disciplines in a single framework designed to offer an efficient, value for money procurement route for local authorities, social landlords and other public sector bodies to source specialist suppliers who can provide a full suite of asset safety and compliance support services.

Key features:

- ✓ Suite of asset safety and compliance disciplines providing a method to meet government guidelines regarding life safety, property protection and maintenance
- ✓ Access to a pool of consultancy and compliance-related expertise through a single framework
- ✓ Access to consultancy and surveying specialists for the management and removal of asbestos
- ✓ Access to expertise in property protection, water management, gas safety and heating servicing, asbestos and electrical testing.

About this framework

Throughout our extensive pre-tender engagement (PTE) process our clients in the public sector acknowledged the positive contribution our previous frameworks in property protection (V7), asbestos services (AS2), heating services (HS1) and water management (WM1) have made in delivering effective life safety systems in the management and maintenance of their assets, and resulting benefits to their tenants and building users.

Our response has been to combine these services and enhance the framework offering further with additional workstreams covering, electrical inspection, testing and servicing in both commercial and residential settings. The result is a framework designed to offer a comprehensive and wide-ranging suite of services to the public sector to assist in meeting building life safety and maintenance, government guidelines and legal responsibilities with the flexibility to meet their needs and community priorities more effectively.

The tender was carried out in strict accordance with the UK Public Contracts Regulations. Places on the framework were awarded to 33 different suppliers in five workstreams. The companies appointed to the framework are experts in their field, with a proven track record in delivering projects with public sector clients.

The term of the framework is from **4th September 2023 to 3rd September 2027**, while workstream 4a Gas Safety - Domestic runs from **18th September 2023 to 17th September 2027**. Individual call-off projects can be completed beyond the four-year duration of the framework as long as a contract is in place prior to the framework expiry date.

ABOUT THIS FRAMEWORK
VISION FOR THE FRAMEWORK

Our Vision for Asset Safety and Compliance

A guiding principle in the development of Asset Safety and Compliance (ASC1) has been to support the public sector in meeting their obligations under government guidelines and legal responsibilities in the area building life safety, maintenance, and compliance as efficiently as possible.

As with all our frameworks we achieve this by striving to meet and exceed the “Gold Standard” for public sector construction frameworks. We pride ourselves on our long-standing commitment to early engagement and collaboration, bringing specialist suppliers and public sector bodies together to guide framework development, ensuring best possible outcomes for the public sector and their communities.

Asset Safety and Compliance (ASC1) clearly demonstrates the benefits of early collaboration resulting in a comprehensive framework making high quality specialist firms available to the public sector, working together to improve asset and building safety for building occupants and communities.

SWPA continues to fulfil our commitments to social value impacts increasing the public sector’s access to regional and local specialists, encouraging SME involvement, and driving economic uplift to regional areas.

> “SWPA are delighted to be able to offer our valued clients and partners a full range of compliance and building safety procurement solutions. It’s fantastic to see so many local Appointed Companies, across the workstreams, who have a wealth of knowledge and expertise that will support our public sector clients over the next four years and beyond.”

Penny Searson

EVALUATION
WEIGHTING, ACCREDITATION AND CERTIFICATIONS

A single stage open tender process was used as set out within the Public Contracts Regulations 2015.

Quality Weighting 70%

General quality questions – business continuity, complaints escalation etc – 20%

Regional delivery questions – evidence of ability to service regional area and social value examples 20%

Lot specific technical quality questions – to demonstrate experience in carrying out the type of works via competency of workforce, scenarios, and evidence of relevant past projects 30%

70% Quality

30% Price

Price Weighting 30%

Consultancy Lots – Priced hourly, and day rates

For Inspections and Maintenance – lot specific pricing structure includes elements of the schedule of day rates, overheads and profits.

The Bidder with the lowest total price for each regional area within a lot will achieve the highest price score for that regional area within the lot, and higher priced Bidders' scores will be indexed against the lowest priced Bidder.

30%

Accreditations and Certifications

Environmental Management*

The relevant accredited certificated scheme in compliance with BS EN ISO 14001 or equivalent.

Health and Safety*

The relevant accredited certificated scheme in compliance with ISO 45001 or equivalent.

Lot Specific Accreditations / Certification

Where applicable evidence of the relevant accreditations, certifications, and membership of trade bodies applicable to the lot they are applying for will be required.

Quality Management*

The relevant accredited certificated scheme in compliance with BS EN ISO 9001 or equivalent.

Compliance with Equality Act 2010

Confirmatory statements they are compliant with the Equality Act 2010 and have measures in place to promote equality and diversity within their organisation.

*Where certification was not held, Appointed Companies were required to complete the appropriate PAS 91 questions to evidence

EVALUATION
CRITERIA CONTINUED

Financial Stability Assessment

Appointed Companies were assessed on their financial stability based on a range of financial information including post-tax profit and current liabilities and checked via Creditsafe. The results of this check were assessed on a pass/fail basis.

Minimum Insurance Cover

Throughout the duration of the framework Appointed Companies are required to have the minimum levels of insurance as follows:

All suppliers are required to have £5m Employers Liability Insurance and £5m Public Liability Insurance. Asbestos consultants, water management consultants and electrical testing companies are also expected to have £2m Professional Indemnity Insurance.

Companies on the workstreams for heating servicing and electrical testing will also have £2m Product Liability Insurance.

CALL-OFF AWARD OPTIONS

THE FRAMEWORK ALLOWS PARTNERS THE OPTION OF:

Direct award without further competition, where all terms and conditions of the call-off project are within the terms and conditions of the framework

OR

Mini-competition, where terms and conditions of the call-off may vary or be modified from the framework or at the choice of the Partner.

When calling off projects, clients can use any one of a range of standard forms of building contract including JCT/SBCC, NEC/NEC4, ACE, PPC, TPC, FAC1, or their own in-house agreement.

ELIGIBILITY

SWPA is a not-for-profit organisation, governed by public law and a central purchasing body providing procurement services. Over 200 publicly funded organisations throughout England use SWPA frameworks to procure works, goods and services to construct, refurbish and maintain social housing, schools and public buildings:

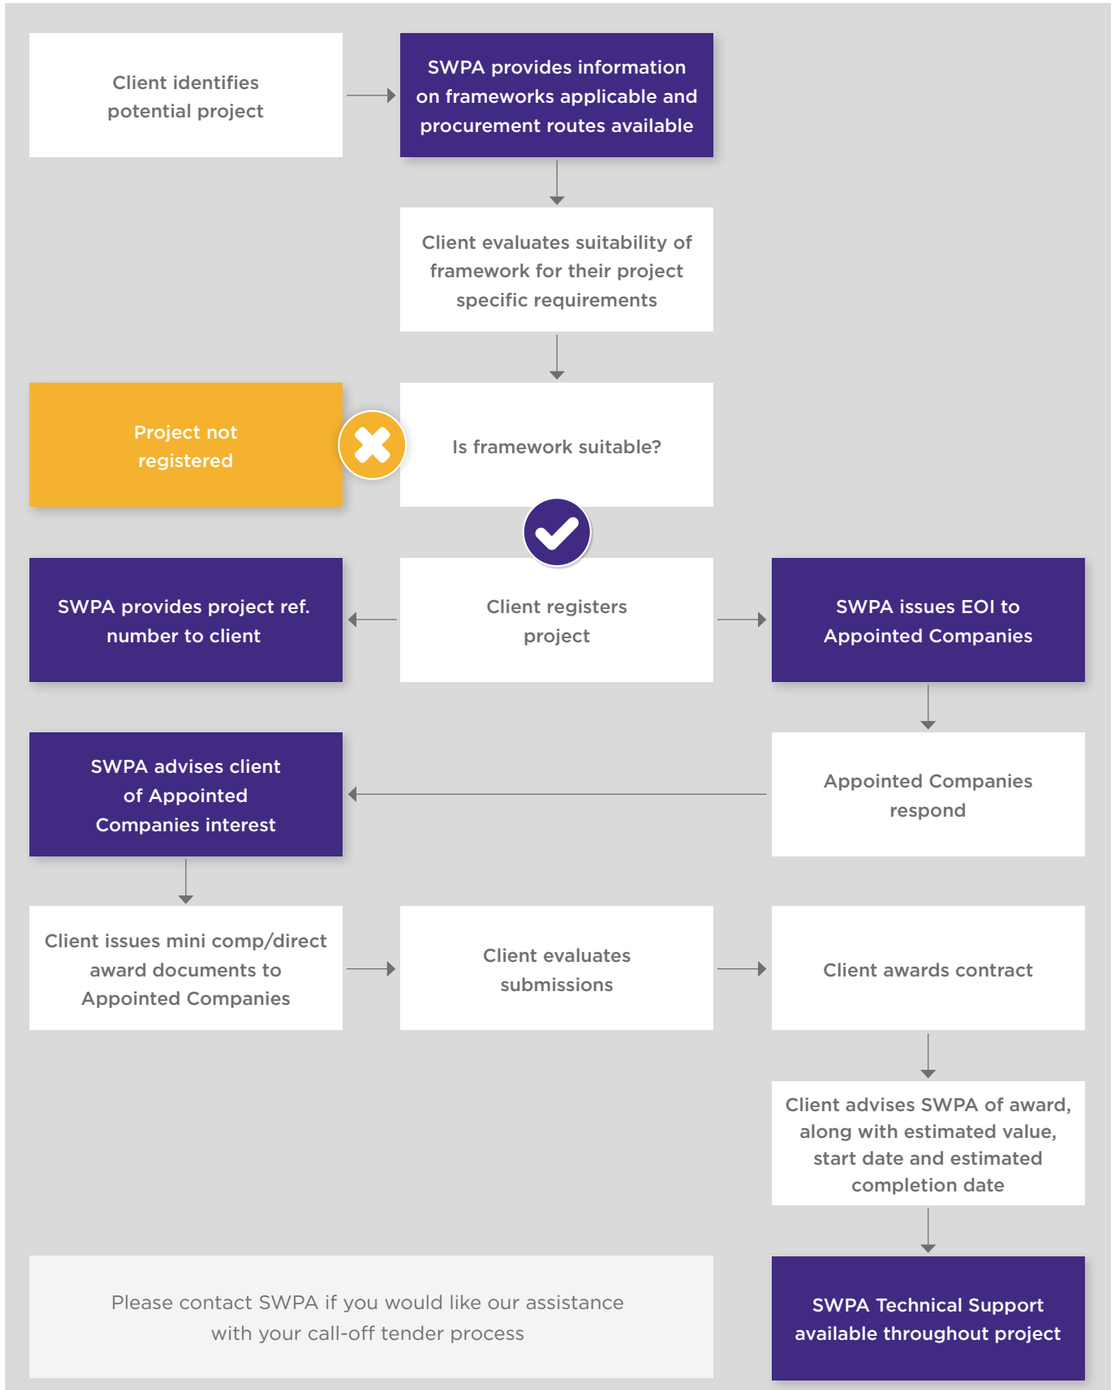

- Local Authorities and any subsidiaries and joint-venture vehicles of those Local Authorities.
- Registered Social Landlords (RSL), Tenant Management Organisations (TMOs) & Arm's Length Management Organisations (ALMOs)
- Registered Charities
- Publicly Funded Schools
- Universities and Further Education Establishments
- Colleges
- Police Forces
- Fire and Rescue services
- Health Authorities, Councils, Boards and Trusts

Details of those contracting authorities identified are listed at:
www.swpa.org.uk/who-we-work-with/

GENERAL TERMS AND CONDITIONS

LHC uses the FAC-1 standard form of contract to manage our frameworks. The LHC pro forma, which should be read in conjunction with the FAC-1 in published form, details the terms and conditions that govern the operation of the framework, including the procedures to call off projects under the framework. A free copy of the LHC proforma is available upon request. The FAC-1 in standard published form can be purchased at a negotiated rate from ACA, by emailing office@acarchitects.co.uk and quoting discount code reference: LHCFAC2516102017.
